darktable - Camera Support #10561

Phase One IQ250 Not supported

07/04/2015 06:28 PM - Arvind Pinto

Status:	Fixed		**Start date:**	07/04/2015
Priority:	Low		**Due date:**	
Assignee:			**% Done:**	100%
Category:			**Estimated time:**	0.00 hour
Target version:	Candidate for next patch release			
Affected Version:	git development version			

Description

.IIQ (Intelligent Image Quality RAW) - Phase One Camera RAWS used to be supported for import earlier. I do not know when support broke. I recently compiled darktable from git as of 1.7.0+1677~ge238cce .IIQ does not open anymore.

Speaking on IRC a potential reason could be dropping of libraw from dt.

Here is a link to a sample file https://www.dropbox.com/sh/hviog1lfd6222ut/AAANQ9jNfnotdYND1RYnxBeOa/chris222142.IIQ?dl=0

History

#1 - 07/04/2015 06:28 PM - Roman Lebedev

- Tracker changed from Bug to Camera Support

#2 - 07/04/2015 08:32 PM - Pedro Côrte-Real

- Target version set to Candidate for next patch release

- Status changed from New to In Progress

- Category deleted (Lighttable)

- Subject changed from .IIQ Not supported to Phase One IQ250 Not supported

- % Done changed from 0 to 50

Basic support has been added in current git master. The colors still look quite off but that's true of both the original IIQ and the converted DNG file. We're also missing a default base curve for this.

#3 - 12/08/2015 08:10 PM - Pedro Côrte-Real

- Status changed from In Progress to Fixed

- % Done changed from 50 to 100

I'm marking this as fixed as it works as well as it ever did.

If you still have that camera (IQ250, or pretty much any other Phase One camera/medium format), it would be great if you could contribute the full raw sample set to the https://raw.pixls.us/
