#### Description

In the global preferences, under GUI options, I've set all three fields "creator/publisher/rights to be applied when importing", yet they are not applied as metadata (i.e. do not show in the metadata editor).

#### History

##### #1 - 05/13/2016 03:17 PM - Roman Lebedev

- % Done changed from 0 to 20
- Status changed from New to Incomplete

Did you also check "apply metadata on import" setting in import dialog?

##### #2 - 05/13/2016 03:29 PM - Lucas Zamboulis

Oops, sorry, didn't notice that option in the import dialog, my bad.

However, I did read the user manual, Chapter 8 Section 1, and also checked the tooltip before submitting the bug. It did not occur to me to read the import dialog section (2.3.1.1, I now see it's documented) and did not notice the option when importing (option is collapsed by default), so I suggest making this a bit more obvious, either by amending the docs in section 8.1 and/or making the option in the dialog not collapsed by default.

##### #3 - 05/13/2016 03:30 PM - Roman Lebedev

- System changed from Ubuntu to all
- Affected Version changed from 2.0.4 to git development version
- % Done changed from 20 to 0
- Assignee set to Ulrich Pegelow
- Status changed from Incomplete to New
- Category changed from General to Usermanual
