

## darktable - Bug #11691

### darktable-generate-cache crashes / segfault

08/13/2017 03:05 PM - Marcus Bungert

<b>Status:</b>	Fixed	<b>Start date:</b>	08/13/2017
<b>Priority:</b>	Low	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	100%
<b>Category:</b>	General	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	2.4.0	<b>bitness:</b>	64-bit
<b>Affected Version:</b>	git master branch	<b>hardware architecture:</b>	amd64/x86
<b>System:</b>	other GNU/Linux		

#### Description

Running darktable-generate-cache crashes. Please take a look to the backtrace generated with debug symbols on darktable-git from Arch Linux AUR.

The crash occurs only on some images. All images are .nef files from a Nikon D600 and Nikon D80. Tobias Ellinghaus asked me to attache a .xmp of affected image.

#### Associated revisions

##### Revision 35a81726 - 08/13/2017 05:59 PM - Tobias Ellinghaus

Fix crash in legacy\_params when run without GUI

The spot iop calls some history code that crashed when there is no GUI around. Add safeguard against that to the core.

Fixes #11691. Hopefully.

#### History

##### #1 - 08/13/2017 06:38 PM - Tobias Ellinghaus

- % Done changed from 0 to 100

- Status changed from New to Fixed

This should be fixed now. For me the backtrace looked different than what you showed, so I am not 100% sure if I fixed it. Please try and report back. Thanks.

##### #2 - 08/19/2017 01:11 AM - Roman Lebedev

- Target version set to 2.4.0
