| Description | | | |
| Hi, when do you think it would be possible to add support for FZ-2000 raw files as the files are all available on the raw.pixls.us repository ? I'm impatient to be able to use this great software with my .rw2 files. | | | |
| Thanks a lot | | | |

Hi Roman,

Thanks to have taken this request into account.

What does it means 100% ? It will be available in the next release ? If yes, do you have any idea on when it will be released ?

Thanks a lot,

Fred
