Affected Version:	2.4.1	hardware architecture:	amd64/x86
System:	Windows		

Description

The spot removal tool has nice feature to allow me to choose circle or eclipse stroke.

But if I choose eclipse the long/short axis is either horizontal or vertical, it would be nice I can rotate the eclipse stroke to have axis any angle.

First time i hear of that.

And i don't remember reading about it in unserver manual.
