

darktable - Bug #12109

Unable to use Darktable, displays some garbage (once)

04/01/2018 02:23 PM - Marek A

Status:	Closed: won't fix	Start date:	04/01/2018
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:	General	Estimated time:	0.00 hour
Target version:	2.6.0	bitness:	64-bit
Affected Version:	2.4.1	hardware architecture:	amd64/x86
System:	other GNU/Linux		

Description

Today morning I started Darktable 2.4.1 (Gentoo Linux, 64 bit) to do some quick edit, but I was unable do do anything. It displayed some garbage, about playing, inserting coins (if I remember correctly), etc. I didn't do a screenshot, because I was in REAL hurry and pissed off with photo editor failed completely (don't even ask, this failure really caused me a lot of trouble...) - and now this issue does not reappear any more.

Are you able to check this bug report? I know it lacks details - but I really didn't have time to collect the details (sorry for this).

- Status changed from New to Closed: won't fix

You won't be affected for another year.

#2 - 04/01/2018 07:29 PM - Marek A

April Fools' joke should be fun - this was a really stupid one. Productive software shouldn't prevent users from doing his work (in my case - urgent) just because someone decided to have fun - from my point of view this is a serious bug. If everyone was doing so, computers today would be next to unusable.

#3 - 04/11/2018 08:56 PM - Roman Lebedev

- Target version changed from Candidate for next patch release to 2.6.0
