Profil looks good.

ISO 3200-6400 is missing (HIGH SENS Mode). Shouldn't it be added?

Thanks for the feedback! Unfortunately, the "HIGH SENS Mode" for the FZ35/38 only allows for jpeg capture.

Please upload sample raw images with 4:3 and 3:2 aspect ration to <https://raw.pixls.us>, afterward I can add your noise profile.

Uhm, wait, all the specs suggest it does not have a 1:1 mode. Unusual. All good then, i suppose :)
