

darktable - Bug #12334

On conflict policy state should persist

09/20/2018 01:12 PM - William Brown

Status:	New	Start date:	09/16/2018
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		bitness:	64-bit
Affected Version:	2.4.4	hardware architecture:	amd64/x86
System:	openSUSE		

Description

The lighttable export module's conflict policy at this time defaults to "create unique filename". When changed to "overwrite" after the next export, the policy reverts to "create unique filename".

When set to "overwrite" the policy should persist between exports for predictable behaviour.

Thanks,
