<b>Target version:</b>	2.6.0		
<b>Affected Version:</b>	2.4.4		

#### Description

First of all, thank you for the great work on Darktable!

It seems, that GX7MK2 is not supported. Any attempt at editing ends with "failed to read camera white balance information". Would it be possible to add support for this camera?

I have uploaded several image samples to <https://raw.pixls.us> (although they don't seem to show up yet). If you need more / different pictures, let me know.
