| Category: | Darkroom | Estimated time: | 0.00 hour |
| Target version: | | | |
| Affected Version: | 2.4.4 | bitness: | 64-bit |
| System: | Ubuntu | hardware architecture: | amd64/x86 |

Description

When panning an image in darkroom brightness level changes unexpectedly.

On the first image (Screenshot_20181007_213937.png) the bridge is dark grey but if I move the image down the bridge becomes brighter (Screenshot_20181007_213953.png)
