@Roman, why 2.6.0? This breaks translation, so we cannot merge PR <https://github.com/darktable-org/darktable/pull/1905> now.

Can't we just make something like this and fix everything at once?

```
for x in *.po
```

```
do
```

```
sed -i 's/scrool/scroll/g' $x
```

```
done
```
