

darktable - Bug #12517

local copies automatically synchronized on startup

12/31/2018 06:27 PM - David Schaefer

Status:	New	Start date:	12/31/2018
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:	General	Estimated time:	0.00 hour
Target version:	2.6.0	bitness:	64-bit
Affected Version:	git master branch	hardware architecture:	amd64/x86
System:	Ubuntu		

Description

On 2.7+65 local copies are automatically synchronized although "core options"->"look for updated xmp files on startup" is deselected. This leads to a init startup time from 95 seconds on fast hardware (huawei matebook pro I7, SSD, 16GB RAM, ...):

```
96,706013 [sql] /home/dave/workspace/darktable.git/src/common/collection.c:627, function dt_collection_get_selected_count():  
prepare "SELECT COUNT FROM main.selected_images"  
96,706634 [init] startup took 96,706633 seconds
```

History

This option is not for "local copies" for to check for change in XMP to resync the database.
