

## darktable - Bug #12523

### Geotagging: find location not working

01/02/2019 10:22 PM - Chris Pete

<b>Status:</b>	New	<b>Start date:</b>	01/02/2019
<b>Priority:</b>	Low	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Map / Geolocation	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	2.6.0	<b>bitness:</b>	64-bit
<b>Affected Version:</b>	git master branch	<b>hardware architecture:</b>	amd64/x86
<b>System:</b>	Windows		

#### Description

Using darktable 2.6.0 on Windows 10 (64-bit), release 1809, darktable won't give any results while trying to look up locations in the search/edit field. I checked for firewall settings - and deactivated a running "Pi-Hole" setup in the network. Yet, that didn't help either.

#### History

Maybe you done it, but in case of, have you press enter after typing location ? Results only appear after pressing enter.

##### #2 - 01/05/2019 09:06 PM - Chris Pete

Yes, I did.

##### #3 - 01/05/2019 10:04 PM - Nicolas Auffray

So, it could be a Windows bug as It works on Linux.

##### #4 - 01/06/2019 11:33 AM - Haribo M

It is a bug, as it is not working on WIN 10 using darktable 2.6.0.

##### #5 - 01/09/2019 01:18 AM - Eloi Coutant

Hi. I confirm that I have the same problem on Windows 10 Pro x64, with darktable 2.6.0: impossible to find a location after pressing Enter. It is not a firewall issue. Do you need some more information I could provide?

##### #6 - 01/16/2019 10:42 AM - Pascal Grataloup

Hi, I also confirm that I have the same issue on Windows 10 Home 1803 with dt 2.6.0 (idem for previous 2.44).
