Description

bug [#8381](#) quite worsens this effect.

See attached screenshots (these ones without median filter enabled, so without [#8381](#) affecting it).

History

#1 - 01/06/2011 11:57 PM - Igor Kuzmin

color version is too big, here's link: <http://img703.imageshack.us/img703/3093/gkrellshoot201101070251.png>

#2 - 03/07/2012 12:17 PM - Tobias Ellinghaus

This still happens.

#3 - 04/12/2012 03:01 AM - Johannes Hanika

that input is quite noisy, especially in color.

because monochrome is a per-pixel operation, it will choke on this.

i'd recommend using the equalizer => chroma denoise preset, pushing mix to 2.0 (increase if necessary).

#4 - 05/28/2012 10:00 PM - Simon Spannagel

- Target version changed from 1.0.3 to Candidate for next patch release

#5 - 07/03/2012 02:13 PM - Tobias Ellinghaus

- % Done changed from 0 to 20

- Target version changed from Candidate for next patch release to Candidate for next minor release

- Priority changed from High to Medium

- Status changed from New to Triaged

- Category set to Darkroom

- Affected Version set to git development version
