

## darktable - Bug #8479

### Plain white images from Nikon E8400

03/23/2011 04:47 PM - koshimazaki -

<b>Status:</b>	Fixed	<b>Start date:</b>	
<b>Priority:</b>	Medium	<b>Due date:</b>	
<b>Assignee:</b>	Henrik Andersson	<b>% Done:</b>	100%
<b>Category:</b>	General	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	---	<b>bitness:</b>	64-bit
<b>Affected Version:</b>		<b>hardware architecture:</b>	amd64/x86
<b>System:</b>			

#### Description

Images from Nikon E8400 aka Nikon Coolpix 8400 are imported all white. Sample attached.

#### History

#1 - 03/23/2011 07:27 PM - koshimazaki -

[<http://strony.aster.pl/bebetter/attachments/DSCN0947.NEF>]

#2 - 03/23/2011 07:31 PM - koshimazaki -

using 0.8 stable from ppa  
as well as version 0.8+195~ga7d3afe-0pmjdebruijn1~maverick from unstable ppa

#3 - 03/23/2011 08:31 PM - koshimazaki -

the following appears in the console output for each image:

```
Unable to find camera in database: NIKON E8400
Unable to find camera in database: NIKON E8400
Please upload file to ftp.rawstudio.org, thanks!
```

#4 - 03/26/2011 07:29 PM - Henrik Andersson

- Status changed from In Progress to Fixed

rawspeed (rawstudio) doesn't suport that format yet, and i added an entry to cameras.xml to flag it unsupported which let's the load fallback to use dcraw which works fine with attached sample image using Darktable.

Please file a bug att [www.rawstudio.org](http://www.rawstudio.org)...
