#### Description

Everything is in the title. I can stand occasional crashes as long as I don't lose too much work. It seems ratings are not saved periodically so they are lost when DT crashes. Sometimes I spend 1/2 hr rating, and everything gets lost. Quite annoying.

- *Affected Version set to 1.0.4*

- *Status changed from New to Closed: invalid*

no answer.

Ratings should be flushed to db periodically, so setting to "invalid".

Feel free to re-open if still valid.
