

darktable - Bug #8524

velvia makes image look soft

07/05/2011 08:38 PM - Zeus Panchenko

Status: Fixed	Start date:
Priority: High	Due date:
Assignee:	% Done: 100%
Category:	Estimated time: 0.00 hour
Target version: ---	
Affected Version:	bitness: 64-bit
System:	hardware architecture: amd64/x86

Description

uname -a

[FreeBSD](#) 8.2-STABLE amd64

darktable --version

this is darktable 0.9+8~g30e1890

after applying velvia, image becomes to look soft or even blurred (especially after zoom in/out)

helps to switch to lt and back or apply another color profile (srgb for example) and back to enhanced matrix

History

#1 - 10/14/2011 09:21 PM - Johannes Hanika

- Status changed from New to Fixed

velvia is a per pixel operation and can't possibly lead to blurring. whatever the issue was here, it has nothing to do with the report.
