

## darktable - Feature #8639

### tagging interface enhancement request

03/22/2012 11:47 AM - James C. McPherson

<b>Status:</b>	Triaged	<b>Start date:</b>	
<b>Priority:</b>	Low	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	20%
<b>Category:</b>	General	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	Future	<b>bitness:</b>	
<b>Affected Version:</b>		<b>hardware architecture:</b>	amd64/x86
<b>System:</b>			

#### Description

It would be really nice if

- the tagging pane was resizable, so we can see 4 prospective tags at once
- the tagging pane allowed multi-select, so we can add or remove more than one tag to a selected image/images at a time

#### History

##### #1 - 10/05/2012 02:45 PM - Tobias Ellinghaus

- % Done changed from 0 to 20

- Status changed from New to Triaged

Sounds like a good idea.

##### #2 - 08/10/2014 11:37 PM - Rudolf Martin

For extended tagging, the tagging pane is to small.  
Manual resizing would be a big improvement.

Multi-select, using SHIFT- or STRG-key, is also appreciated.
