

darktable - Bug #8883

flickr module upload is broken due to change in API

08/22/2012 03:38 PM - Jose Carlos Garcia Sogo

Status:	Fixed	Start date:	08/22/2012
Priority:	Medium	Due date:	09/29/2012
Assignee:	Jose Carlos Garcia Sogo	% Done:	100%
Category:	Lighttable	Estimated time:	0.00 hour
Target version:	Candidate for next minor release	bitness:	64-bit
Affected Version:	1.0.4	hardware architecture:	amd64/x86
System:	unknown		

Description

Flickr module no longer works, as the old API has been dropped and has been replaced by a new OAuth 1.0 based API
[[<http://www.flickr.com/services/api/auth.oauth.html>]]
The module needs to be updated to make it usable again.

History

#1 - 10/05/2012 05:21 PM - Tobias Ellinghaus

- % Done changed from 0 to 50
- Priority changed from High to Medium
- Status changed from New to In Progress

#2 - 11/13/2013 11:53 PM - Tobias Ellinghaus

- bitness set to 64-bit
- System set to unknown
- % Done changed from 50 to 100
- Status changed from In Progress to Fixed

This is fixed, isn't it?
