

darktable - Feature #9680

Enable scrolling in film strip without mouse

11/18/2013 11:39 PM - Wolfgang Grossinger

Status:	New	Start date:	11/18/2013
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Affected Version:		bitness:	64-bit
System:		hardware architecture:	amd64/x86

Description

At the moment, moving the film strip forward/backward with the mouse wheel works fine. Without a mousewheel (e.g. when you work on a laptop), the navigation is very limited (explicitly select the first/last visible icon to move a few positions forward/backward).

-> Implement the possibility to move with cursor keys or some other possibility to move forward/backward in the film strip without a mouse wheel without explicitly selecting a picture.

History

#1 - 11/19/2013 12:28 AM - Tobias Ellinghaus

Someone wrote code to add small arrows to the sides of filmstrip once. I wonder what happened to that? It never got merged.
