

darktable - Bug #9852

Interface becomes unresponsive when applying tags large number of files

03/16/2014 12:11 AM - Stuart Stent

Status:	New	Start date:	03/16/2014
Priority:	Medium	Due date:	
Assignee:	Jose Carlos Garcia Sogo	% Done:	0%
Category:	Lighttable	Estimated time:	0.00 hour
Target version:			
Affected Version:	1.4.1	bitness:	64-bit
System:	Ubuntu	hardware architecture:	amd64/x86

Description

When I apply tags to multiple RAW files, the interface hangs/becomes unresponsive until all tags have been written. The amount of time the system stays unresponsive appears to be directly related to the number of files being modified.

Is it possible to have the writing of these files become a background task (similar to importing a folder)?
